# ForgeKin API

Complete Reference — Endpoint Manifest & Payloads

Base URL: `https://api.forgekin.org/api`
Authentication: Laravel Sanctum bearer tokens
Generated: 2026-04-19

# Contents

**Part I · Endpoint Manifest**

1. Freelancer — Auth & Verification
2. Freelancer — Profile & Browsing
3. Password reset
4. Employer — Auth
5. Employer — Profile
6. Jobs — Public
7. Jobs — Employer
8. Admin — Jobs
9. Admin — Employer verification
10. Admin — Authentication
11. Super-Admin — Users
12. Super-Admin — Roles & Permissions
13. Dashboards & Performance
14. Cross-lookups

**Part II · Payloads**

1. Conventions & errors
2. Freelancer payloads (19)
3. Employer payloads (11)
4. Job payloads (12)
5. Admin & Super-Admin payloads (16)
6. Freelancer dashboard response
7. Admin performance response
8. Cross-lookup payloads (4)

# Part I · Endpoint Manifest

public auth:sanctum role:Super-Admin permission:* rate-limited

## 1 · Freelancer — Registration & Verification

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| POST | `/freelancers` | Register a new freelancer; sends 6-char verification code (30 min expiry). | public |
| POST | `/freelancers/verify-email` | Verify email using the 6-char code. | public |
| POST | `/freelancers/resend-verification` | Re-issue a verification code. | public |
| POST | `/freelancers/login` | Authenticate verified freelancer; returns Sanctum token. | public 5/min |
| POST | `/freelancers/logout` | Revoke the current access token. | auth + verified |

## 2 · Freelancer — Profile & Browsing

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| GET | `/freelancers` | Paginated list with search + verified filter. | public |
| GET | `/freelancers/{freelancer}` | Show freelancer with skills, work experiences, shifts, documents, profile image URL. | public |
| PUT | `/freelancers/{freelancer}` | Update profile (basic, skills, work experiences, shifts, profile image, documents). | auth + verified |
| DELETE | `/freelancers/{freelancer}` | Delete account; cleans up profile image + all document files. | auth + verified |
| DELETE | `/freelancers/{freelancer}/work-experiences/{experience}` | Remove a single work-experience row. | auth + verified |
| DELETE | `/freelancers/{freelancer}/skills/{skill}` | Detach a skill. | auth + verified |
| DELETE | `/freelancers/{freelancer}/documents/{document}` | Delete one uploaded document (DB + disk). | auth + verified |
| GET | `/freelancers/{freelancer}/jobs` | Jobs assigned to this freelancer | auth + verified |

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| | | (owner-only). | |
| GET | `/freelancers/{id}/dashboard` | Full performance + earnings + history dashboard. | auth + verified |

## 3 · Password Reset

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| POST | `/forgot-password` | Send reset link to user's email. | public 3/min |
| POST | `/reset-password` | Reset password using token. | public |

## 4 · Employer — Registration & Auth

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| POST | `/employers/register` | Create an employer account in `inactive` status; notifies admin. | public |
| POST | `/employers/login` | Authenticate *active* employer. | public 5/min |
| POST | `/employers/logout` | Revoke current access token. | auth |

## 5 · Employer — Company Profile

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| GET | `/employers` | Paginated list with search + verification filter. | public |
| GET | `/employers/{employer}` | Show employer (incl. `company_logo_url`, `specialties`). | public |
| PUT | `/employers/{employer}` | Update profile (basic + extended fields, logo via multipart or base64). | auth + verified |
| DELETE | `/employers/{employer}` | Delete account; cleans up logo file. | auth + verified |
| GET | `/employers/{employer}/freelancers` | Distinct freelancers across this employer's jobs. | auth + verified |

## 6 · Jobs — Public Browsing

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| GET | `/jobs` | Filterable paginated list. | public |
| GET | `/jobs/{id}` | Show job with employer + assigned freelancer. | public |

## 7 · Jobs — Employer Actions

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| POST | `/jobs` | Create a job. | auth + verified |
| PUT | `/jobs/{id}` | Update own job. | auth + verified |
| DELETE | `/jobs/{id}` | Delete own job. | auth + verified |
| GET | `/jobs/{id}/freelancer` | Get freelancer assigned to this job. | auth |

## 8 · Admin — Job Moderation prefix `/admin`

| METHOD | PATH | PURPOSE | REQUIRED PERMISSION |
|---|---|---|---|
| GET | `/admin/jobs` | Admin list. | jobs.read |
| POST | `/admin/jobs` | Admin create. | jobs.create |
| PATCH | `/admin/jobs/{id}` | Admin edit. | jobs.update |
| DELETE | `/admin/jobs/{id}` | Admin delete. | jobs.delete |
| PATCH | `/admin/jobs/{id}/approve` | Set `status=approved`. Idempotent. | jobs.approve |
| PATCH | `/admin/jobs/{id}/assign` | Assign freelancer + set `status=assigned`. | jobs.assign |

## 9 · Admin — Employer Verification

| METHOD | PATH | PURPOSE | REQUIRED PERMISSION |
|---|---|---|---|
| PATCH | `/admin/employers/{employer}/approve` | Set `verification_status=active` + email employer. | employers.verify |
| PATCH | `/admin/employers/{employer}/revoke` | Set `inactive` + delete tokens. | employers.verify |

## 10 · Admin — Authentication

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| POST | `/users/login` | Admin / user login. | public 5/min |

## 11 · Super-Admin — User Management

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| GET | `/users` | List users. | Super-Admin |
| GET | `/users/{id}` | Show user. | Super-Admin |
| POST | `/users` | Create user. | Super-Admin |
| DELETE | `/users/{id}` | Delete user. | Super-Admin |
| POST | `/users/{id}/roles` | Sync roles. | Super-Admin |

## 12 · Super-Admin — Roles & Permissions

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| GET | `/roles` | List roles. | Super-Admin |
| POST | `/roles` | Create role. | Super-Admin |
| PUT | `/roles/{id}` | Rename role (Super-Admin locked). | Super-Admin |
| DELETE | `/roles/{id}` | Delete role. | Super-Admin |
| POST | `/roles/{id}/permissions` | Sync permissions on a role. | Super-Admin |
| GET | `/permissions` | List permissions. | Super-Admin |
| POST | `/permissions` | Create permission. | Super-Admin |

## 13 · Dashboards & Performance

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| GET | `/freelancers/{id}/dashboard` | Freelancer stats, earnings, top clients, active jobs, history, withdrawals. | auth + verified |
| GET | `/admin/performance` | Platform-wide totals, financials, trends, leaderboards, alerts. | admin.dashboard |

## 14 · Cross-Lookups

| METHOD | PATH | PURPOSE | ACCESS |
|---|---|---|---|
| GET | `/freelancers/{freelancer}/jobs` | Jobs assigned to this freelancer. | owner |
| GET | `/employers/{employer}/freelancers` | Distinct freelancers who worked this employer's jobs. | owner |
| GET | `/jobs/{id}/freelancer` | The freelancer currently assigned to a job. | employer / freelancer / `jobs.read` |

# Part II · Payloads

## 1 · Conventions & common headers

Every JSON request:

```
Content-Type: application/json
Accept: application/json
```

Authenticated requests add:

```
Authorization: Bearer <sanctum-token>
```

File uploads use `multipart/form-data`. For endpoints that expect `PUT`, POST with `_method=PUT` — PHP does not parse multipart on real PUT.

**STANDARD ERROR SHAPES**

```
// 401 — missing / invalid token
{ "message": "Unauthenticated." }

// 403 — authenticated but not authorized
{ "success": false, "message": "Unauthorized." }

// 404 — model not found
{ "message": "No query results for model [App\\Models\\...] 999" }

// 422 — validation
{
  "message": "The email has already been taken.",
  "errors": { "email": ["The email has already been taken."] }
}

// 429 — rate limit
{ "message": "Too Many Attempts." }
```

## 2 · Freelancer payloads

### 2.1 Register

**POST** `/api/freelancers`

public

```
{
  "first_name": "Sodey",
  "last_name": "Haidor",
  "other_names": "Gabriel",
  "email": "sda2.techaide@gmail.com",
  "contact": "+233501234567",
  "password": "Secret123!",
  "password_confirmation": "Secret123!",
  "gender": "male",
  "dob": "1990-05-20"
}
```

**RESPONSE — 201**

```
{
  "message": "Freelancer registered successfully. Verification code sent to email.",
  "data": { "id": 1, "first_name": "Sodey", "last_name": "Haidor", "verification_status": "pending" }
}
```

### 2.2 Verify email with code

**POST** `/api/freelancers/verify-email`

public

```
{ "email": "sda2.techaide@gmail.com", "code": "ABC123" }
```

### 2.3 Resend verification code

**POST** `/api/freelancers/resend-verification`

public

```
{ "email": "sda2.techaide@gmail.com" }
```

### 2.4 Login

**POST** `/api/freelancers/login`

public 5/min

```
{ "email": "sda2.techaide@gmail.com", "password": "Secret123!" }
```

### 2.5 Logout

**POST** `/api/freelancers/logout`

auth + verified

No body.

### 2.6 List freelancers

GET `/api/freelancers?search=Sodey&verified=1&per_page=15`

public

### 2.7 Show one

GET `/api/freelancers/1`

public

### 2.8 Update — basic info

PUT `/api/freelancers/1`

auth + verified

```
{
  "first_name": "Sodey",
  "last_name": "Haidor",
  "other_names": "Gabriel",
  "contact": "+233501234567",
  "gender": "male",
  "dob": "1990-05-20",
  "profession": "Backend Engineer",
  "bio": "PHP / Laravel engineer with 8 years of experience.",
  "location": "Accra, Ghana",
  "hourly_rate": 45.00,
  "proficiency": "advanced"
}
```

### 2.9 Update — skills (replaces set)

```
{ "skills": ["PHP", "Laravel", "MySQL", "Docker", "Redis"] }
```

### 2.10 Update — work experiences (replaces all)

```
{
  "work_experiences": [
    {
      "role": "Senior Backend Engineer",
      "company_name": "TechVision Solutions",
      "start_date": "2022-03-01",
      "end_date": "2025-12-31",
      "description": "Led REST API design."
    }
  ]
}
```

### 2.11 Update — shift preferences (syncs)

```
{
  "shift_preferences": [
    { "shift_id": 1, "start_time": "08:00:00", "end_time": "12:00:00" }
  ]
}
```

### 2.12 Upload profile image + documents (multipart)

**POST** `/api/freelancers/1`

auth + verified

```
Content-Type: multipart/form-data

_method: PUT
profile_image: <binary>   (jpeg/jpg/png/webp, ≤ 5 MB)
documents[]:   <binary>   (pdf/jpg/jpeg/png/doc/docx, ≤ 5 MB each)
documents[]:   <binary>
```

### 2.13 Combined full-profile update (multipart)

```
_method: PUT
first_name: Sodey
last_name: Haidor
profession: Backend Engineer
hourly_rate: 45.00

skills[]: PHP
skills[]: Laravel

work_experiences[0][role]: Senior Backend Engineer
work_experiences[0][company_name]: TechVision Solutions
work_experiences[0][start_date]: 2022-03-01

shift_preferences[0][shift_id]: 1
shift_preferences[0][start_time]: 08:00:00
shift_preferences[0][end_time]: 12:00:00

profile_image: <binary>
documents[]: <binary>
```

### 2.14 Delete a work experience

**DELETE** `/api/freelancers/1/work-experiences/7`

auth + verified

### 2.15 Detach a skill

**DELETE** `/api/freelancers/1/skills/3`

auth + verified

Path param is the skill ID, not the name.

### 2.16 Delete a document

**DELETE** `/api/freelancers/1/documents/12`

auth + verified

### 2.17 Delete account

**DELETE** `/api/freelancers/1`

auth + verified

### 2.18 Forgot password

**POST** `/api/forgot-password`

public 3/min

```
{ "email": "sda2.techaide@gmail.com" }
```

### 2.19 Reset password

**POST** `/api/reset-password`

public

```
{
  "email": "sda2.techaide@gmail.com",
  "token": "<token-from-reset-email>",
  "password": "NewSecret456!",
  "password_confirmation": "NewSecret456!"
}
```

## 3 · Employer payloads

### 3.1 Register

**POST** `/api/employers/register`

public

```
{
  "first_name": "Leslie",
  "last_name": "Brown",
  "company_name": "TechVision Solutions",
  "email": "leslieabbrown10@gmail.com",
  "contact": "+233 24 123 4567",
  "password": "Secret123!",
  "password_confirmation": "Secret123!",
  "business_type": "SME"
}
```

Creates with `verification_status=inactive`. Admin must approve before login works.

### 3.2 Login

**POST** `/api/employers/login`

public 5/min

```
{ "email": "leslieabbrown10@gmail.com", "password": "Secret123!" }
```

### 3.3 Logout

**POST** `/api/employers/logout`

auth + verified

### 3.4 List employers

**GET** `/api/employers?search=TechVision&verified=active&per_page=15`

public

### 3.5 Show one employer

**GET** `/api/employers/3`

public

### 3.6 Update — basic info

**PUT** `/api/employers/3`

auth + verified

```
{
  "first_name": "Leslie",
  "last_name": "Brown",
  "company_name": "TechVision Solutions",
  "contact": "+233 24 123 4567",
  "business_type": "SME"
}
```

### 3.7 Update — extended company profile

```
{
  "industry": "Technology & Software",
  "company_size": "50-200 employees",
  "location": "Accra, Ghana",
  "website": "www.techvision.com",
  "founded": "2018",
  "about": "TechVision Solutions is a leading technology company.",
  "specialties": ["Web Development", "Mobile Apps", "UI/UX Design", "Digital Marketing"]
}
```

### 3.8 Update — full JSON payload (with base64 logo)

```
{
  "company_name": "TechVision Solutions",
  "first_name": "Leslie",
  "last_name": "Brown",
  "contact": "+233 24 123 4567",
  "email": "leslieabbrown10@gmail.com",
  "business_type": "SME",
  "company_logo": "...",
  "industry": "Technology & Software",
  "company_size": "50-200 employees",
  "location": "Accra, Ghana",
  "website": "www.techvision.com",
  "founded": "2018",
  "about": "TechVision Solutions is a leading technology company.",
  "specialties": ["Web Development", "Mobile Apps"]
}
```

### 3.9 Update — logo via multipart

**POST** `/api/employers/3`

auth + verified

```
Content-Type: multipart/form-data

_method: PUT
company_logo: <binary>    (jpeg/jpg/png/webp/svg, ≤ 5 MB)
industry: Technology & Software
specialties[]: Web Development
specialties[]: Mobile Apps
```

### 3.10 Clear the logo

```
{ "company_logo": null }
```

### 3.11 Delete account

**DELETE** `/api/employers/3`

auth + verified

## 4 · Job payloads

### 4.1 Public — list jobs

**GET** `/api/jobs?search=Laravel&rate_type=hourly&experience_level=advanced&status=approved&active_only=1`

public

### 4.2 Public — show job

**GET** `/api/jobs/12`

public

Response now eager-loads both `employer` and `assigned_freelancer`.

### 4.3 Employer — create job (full)

**POST** `/api/jobs`

auth + verified

```
{
  "title": "Senior Laravel Developer",
  "description": "Build and maintain REST APIs for a fintech platform.",
  "skills": "PHP, Laravel, MySQL, Redis, Docker",
  "rate_type": "hourly",
  "experience_level": "advanced",
  "min_budget": 30,
  "max_budget": 80,
  "deadline": "2026-07-15",
  "estimated_duration": "3 months",
  "shift_type": "Morning"
}
```

### 4.4 Employer — create job (minimum)

```
{
  "title": "Frontend Developer",
  "description": "Build a React dashboard.",
  "skills": "React, TypeScript",
  "rate_type": "fixed",
  "experience_level": "intermediate",
  "deadline": "2026-06-30",
  "estimated_duration": "4 weeks",
  "shift_type": "Any Shift"
}
```

### 4.5 Employer — update job (partial)

**PUT** `/api/jobs/12`

auth + verified

```
{ "title": "Senior Laravel Engineer", "max_budget": 100 }
```

```
{ "status": "in_progress" }
```

### 4.6 Employer — delete job

**DELETE** `/api/jobs/12`

auth + verified

### 4.7 Admin — list jobs

**GET** `/api/admin/jobs?status=pending_approval&per_page=20`

jobs.read

### 4.8 Admin — create job

**POST** `/api/admin/jobs`

jobs.create

```
{
  "employer_id": 3,
  "title": "Senior Laravel Developer",
  "description": "Build REST APIs.",
  "skills": "PHP, Laravel, MySQL",
  "rate_type": "hourly",
  "experience_level": "advanced",
  "min_budget": 30, "max_budget": 80,
  "deadline": "2026-07-15",
  "estimated_duration": "3 months",
  "shift_type": "Morning"
}
```

### 4.9 Admin — update job

**PATCH** `/api/admin/jobs/12`

jobs.update

```
{ "status": "pending_approval", "max_budget": 120 }
```

### 4.10 Admin — delete job

**DELETE** `/api/admin/jobs/12`

jobs.delete

### 4.11 Admin — approve a job

**PATCH** `/api/admin/jobs/12/approve`

jobs.approve

No body. Sets `status=approved`. Idempotent.

### 4.12 Admin — assign freelancer

**PATCH** `/api/admin/jobs/12/assign`

jobs.assign

```
{ "freelancer_id": 7 }
```

## 5 · Admin & Super-Admin payloads

### 5.1 Admin / Super-Admin login

**POST** `/api/users/login`

public 5/min

```
{ "email": "admin@forgekin.org", "password": "Password1!" }
```

### 5.2 Approve employer

**PATCH** `/api/admin/employers/3/approve`

employers.verify

No body. Sets `verification_status=active` and emails the employer.

### 5.3 Revoke employer verification

**PATCH** `/api/admin/employers/3/revoke`

employers.verify

No body. Sets `inactive` + deletes all of that employer's active tokens.

### 5.4 List users

**GET** `/api/users?per_page=20`

Super-Admin

### 5.5 Show one user

**GET** `/api/users/5`

Super-Admin

### 5.6 Create user

**POST** `/api/users`

Super-Admin

```
{
  "first_name": "New",
  "last_name": "Admin",
  "other_name": "James",
  "email": "newadmin@forgekin.org",
  "password": "Password1!"
}
```

### 5.7 Delete user

**DELETE** `/api/users/5`

Super-Admin

### 5.8 Sync roles on a user

**POST** `/api/users/5/roles`

Super-Admin

```
{ "roles": ["Admin", "Editor"] }
```

### 5.9 List roles

GET /api/roles

Super-Admin

### 5.10 Create role

POST /api/roles

Super-Admin

```
{ "name": "Editor" }
```

### 5.11 Rename role

PUT /api/roles/5

Super-Admin

```
{ "name": "Content Manager" }
```

### 5.12 Delete role

DELETE /api/roles/5

Super-Admin

### 5.13 Sync permissions on a role

POST /api/roles/5/permissions

Super-Admin

```
{
  "permissions": [
    "jobs.read",
    "jobs.create",
    "jobs.update",
    "jobs.approve",
    "jobs.assign",
    "employers.verify",
    "admin.dashboard"
  ]
}
```

### 5.14 List permissions

GET /api/permissions

Super-Admin

### 5.15 Create permission

**POST** `/api/permissions`

Super-Admin

```
{ "name": "reports.view" }
```

### 5.16 Seeded permission reference

| MODULE | ACTIONS |
|---|---|
| `jobs` | create, read, update, delete, approve, assign, * |
| `users` | create, read, update, delete, * |
| `employers` | read, verify, * |
| `admin` | dashboard, * |
| `roles` | manage, * |
| `permissions` | manage, * |

## 6 · Freelancer dashboard response

**GET** `/api/freelancers/{id}/dashboard?page=1&per_page=10`

auth + verified

```
{
  "success": true,

**FLAG VALUES IN** `RECENT_JOBS.ITEMS[].FLAGS`

| FLAG | RAISED WHEN |
|---|---|
| `late_delivery` | Completed after deadline. |
| `overdue` | Still assigned/in-progress past deadline. |
| `disputed_payment` | Any related payment has `status=disputed`. |
| `low_rating` | Review has `stars ≤ 2`. |

## 8 · Cross-lookup payloads

### 8.1 Freelancer → their assigned jobs

**GET** `/api/freelancers/{freelancer}/jobs?status=in_progress&active_only=1&per_page=10`

auth + verified (owner)

```
{
  "success": true,
  "data": {
    "current_page": 1,
    "data": [
      {
        "id": 112,
        "employer_id": 3,
        "assigned_freelancer_id": 7,
        "title": "Payments Microservice — Phase 2",
        "skills": "PHP, Laravel, Stripe, Paystack",
        "rate_type": "hourly",
        "experience_level": "advanced",
        "min_budget": "40.00",
        "max_budget": "90.00",
        "deadline": "2026-05-20T00:00:00.000000Z",
        "estimated_duration": "6 weeks",
        "shift_type": "Morning",
        "status": "in_progress",
        "assigned_at": "2026-03-28T09:12:00.000000Z",
        "actual_start_date": "2026-03-29T00:00:00.000000Z",
        "completed_at": null,
        "agreed_rate": 45,
        "employer": {
          "id": 3,
          "company_name": "TechVision Solutions",
          "company_logo_url": "https://api.forgekin.org/storage/company_logos/techvision-
solutions.png"
        }
      }
    ],
    "per_page": 10, "total": 1, "last_page": 1
  }
}
```

### 8.2 Employer → roster of freelancers

**GET** `/api/employers/{employer}/freelancers?status=active&per_page=15`

auth + verified (owner)

```
{
  "success": true,
  "data": {
    "current_page": 1,
    "data": [
      {
        "id": 7,
        "full_name": "Sodey Gabriel Haidor",
        "email": "sda2.techaide@gmail.com",
        "contact": "+233501234567",
        "profession": "Backend Engineer",
        "profile_image_url": "https://api.forgekin.org/storage/profile_images/sodey-haidor.png",
        "verification_status": "verified",
        "jobs_in_progress": 2,
        "jobs_on_hold": 0,
        "jobs_completed_for_you": 6,
        "total_spend_on_freelancer": 12400.00,
        "last_activity": "2026-04-17"
      }
    ],
    "per_page": 15, "total": 1, "last_page": 1
  }
}
```

**AGGREGATE-FIELD REFERENCE**

| FIELD | MEANING |
|---|---|
| `jobs_in_progress` | Jobs with status `assigned` or `in_progress`. |
| `jobs_on_hold` | Jobs with status `on_hold`. |
| `jobs_completed_for_you` | Jobs with status `done`. |
| `total_spend_on_freelancer` | Sum of `job_payments.gross` where `status=paid` for this employer–freelancer pair. |
| `last_activity` | Most recent `updated_at` on any shared job. |

### 8.3 Job → freelancer assigned to it

**GET** `/api/jobs/{id}/freelancer`

employer / freelancer / `jobs.read`

**RESPONSE — 200 (FREELANCER ASSIGNED)**

```
{
  "success": true,
  "data": {
    "job": {
      "id": 12,
      "title": "Payments Microservice — Phase 2",
      "status": "in_progress",
      "assigned_at": "2026-03-28"
    },
    "freelancer": {
      "id": 7,
      "full_name": "Sodey Gabriel Haidor",
      "email": "sda2.techaide@gmail.com",
      "contact": "+233501234567",
      "profession": "Backend Engineer",
      "location": "Accra, Ghana",
      "hourly_rate": 45.0,
      "proficiency": "advanced",
      "profile_image_url": "https://api.forgekin.org/storage/profile_images/sodey-haidor.png",
      "verification_status": "verified"
    }
  }
}
```

**RESPONSE — 200 (NO ONE ASSIGNED YET)**

```
{
  "success": true,
  "message": "No freelancer has been assigned to this job yet.",
  "data": null
}
```

### 8.4 Public `GET /api/jobs/{id}` now includes assigned freelancer

```
{
  "success": true,
  "data": {
    "id": 12,
    "title": "Payments Microservice — Phase 2",
    "status": "in_progress",
    "rate_type": "hourly",
    "agreed_rate": 45,
    "deadline": "2026-05-20T00:00:00.000000Z",
    "employer": {
      "id": 3,
      "company_name": "TechVision Solutions",
      "company_logo_url": "https://api.forgekin.org/storage/company_logos/techvision-solutions.png"
    },
    "assigned_freelancer": {
      "id": 7,
      "first_name": "Sodey",
      "last_name": "Haidor",
      "profession": "Backend Engineer",
      "profile_image_url": "https://api.forgekin.org/storage/profile_images/sodey-haidor.png"
    }
  }
}
```

### 8.5 Authorization matrix

| ENDPOINT | EMPLOYER | FREELANCER | ADMIN |
|---|---|---|---|
| `GET /freelancers/{id}/jobs` | — | Owner only | — |
| `GET /employers/{id}/freelancers` | Owner only | — | — |
| `GET /jobs/{id}/freelancer` | Job owner | If assigned | With `jobs.read` |
